

ICT Equipment Sales, Installation & Upgrades

Advice and bespoke quotations to suit your requirements

The challenge

Accessing impartial advice and guidance about IT solutions, that will support school management and enhance learning opportunities in a fast changing technological environment, can be challenging. All schools should look to assess their needs for now and the future.

The solution

The ICT Service has dedicated teams to work with you on any requirement you may have regarding the purchase, installation or upgrade of your school's ICT infrastructure. No matter how big or small your future plans are, whether you need just one PC upgrade or an entire new build project with hundreds of devices. We aim to be cost effective, flexible and achieve sustainable solutions from the substantial investment you make.

We can provide you with key services to meet your needs, including:

- Equipment Sales
- Wireless Solutions
- Cabling Solutions
- Installation
- Equipment Auditing
- Upgrades

Frequently asked questions about IT procurement

Do I need to source three quotes when purchasing equipment from The ICT Service?

We are part of your LA framework, therefore the requirement to have three quotes is not applicable.

Does The ICT Service have access to special offers?

Yes, due to our links to market leading companies we do have opportunities for significant savings.

Can our ICT equipment be upgraded?

The ICT Service provides an ICT Equipment Audit service that will highlight the equipment suitable for upgrade. We are able to quote for the entire process from licensing, upgrade and installation.

Can equipment purchased elsewhere be installed?

We are able to install most devices 'out of the box'. In some cases additional configuration may be needed.

Are installations guaranteed in any way?

All of our installations are covered for a period of 30 working days. If you need to raise any issue, please contact our Helpline team within this period.
